WORK EXPERIENCE

Full stack web developer Intern | MZN company Amman, Jordan Oct 2025 – Feb 2026

- Developed and maintained full-stack web applications using React.js and Kotlin Spring Boot
- Built and integrated RESTful APIs
- Worked with PostgreSQL for database operations
- Collaborated within Agile team environment

CERTIFICATIONS AND COURSES

- Full Stack Web Development Certification — HTUX
 - Frontend Development (React.js) Certification — HTUX
 - Spring Boot Mastering Course
 - SQL Database Course
 - Data Structures & Algorithms Course
 - Kotlin Fundamentals Course
-

PROJECT

SCRUMMENA: Scrum Management Platform

Tech Stack: backend: Kotlin Spring Boot, frontend: React.js, database: PostgreSQL

- Designed and developed a full-stack platform supporting full scrum development cycle.

Platform includes: sprints planning & management, tasks tracking, team management & communication with AI powered features

- Built a responsive React.js frontend with drag-and-drop Kanban boards
- Developed a backend using Kotlin Spring Boot with secure JWT-based authentication
- Implemented role-based access control (RBAC) for different user roles
- Modeled and managed relational database using PostgreSQL
- Integrated with Open AI to generate Work Breakdown Structures (WBS) from user stories
- Provided AI assistant chat so users can accelerate their work
- Collaborated and led with a team of 3 developers to deliver the MVP
